10 REASONS TO CHOOSE

Rabat

Tutoring Academy

At Rabat Tutoring Academy, we offer a structured, personalised IB Diploma learning experience designed for high school students. With high quality IB courses, one-on-one tutoring, and personal support & coaching, our students develop independence while meeting the demands of a rigorous university-preparatory programme. It's a strong choice for parents seeking the global recognition of the IB—combined with personalized guidance and support.

1 PERSONALIZED TEACHING

At Rabat Tutoring Academy, we understand that IB students do not all learn the same way — and that the IB Diploma requires far more than content delivery alone. That's why we personalize each student's learning experience to match their academic profile, pace, and goals.

While our IB partner school delivers the official curriculum and assessments, RTA tutors work closely with students every day to clarify concepts, plan coursework, manage deadlines, and prepare for assessments. This individualized support helps students stay confident, organized, and on track throughout the two-year IB programme.

2 A WORLD CLASS EDUCATION

The International Baccalaureate Diploma Programme is one of the most rigorous and respected pre-university qualifications in the world. Through our hybrid model, students benefit from:

- Fully accredited IB instruction delivered by an IB World School
- Daily in-person academic supervision and tutoring at RTA
- Strong preparation for competitive universities worldwide

3 FITS YOUR LIFE

The IB Diploma is demanding. RTA's hybrid model offers the flexibility students need while preserving structure and accountability. With a mix of online classes, one-on-one tutoring, our program adapts to your child's lifestyle—not the other way around. Whether they're an athlete with a demanding training schedule, a performer, or a student who took time off due to illness or other life events, we make it possible to stay on track and thrive academically. At Rabat Academy, education fits real life.

4 A SUPPORTIVE ENVIRONMENT

Traditional school settings can sometimes increase stress, anxiety, and unhealthy competition — especially in academically intense programmes like the IB.

At RTA, students learn in a calm, supportive environment with small groups, close supervision, and trusted adults who know them well. This approach reduces pressure, builds confidence, and allows students to focus on meaningful learning rather than survival.

5

MORE TIME FOR EXPLORATION

The IB values well-rounded learners. Through hybrid learning, students have more time and energy to pursue sports, creative interests, leadership, and service — all of which feed directly into the IB's CAS (Creativity, Activity & Service) requirement.

RTA actively facilitates these opportunities locally, helping students maintain balance while strengthening their IB profile.

6

TAILORED FOR SPECIAL NEEDS

Highly capable students, students with ADHD or learning differences, and students who have fallen out of traditional systems often struggle in rigid school environments.

At RTA, instruction and support are adapted to each learner's needs. Tutors adjust pacing, provide alternative explanations, and work one-on-one to ensure students remain engaged and motivated throughout the IB programme.

7

STRONGER SOCIAL SKILLS

Rather than being confined to a classroom of same-age peers, the IB programme fosters more diverse social interactions. Through the IB Creativity, Activity, Service (CAS) learning component — including extra-curriculars and community service — our students develop effective communication, teamwork, and leadership skills—essential for both academic and real-world success.

8

UNIVERSITY AND CAREER READINESS

The IB Diploma emphasizes independent thinking, time management, research, and reflection — all critical for higher education.

RTA reinforces these skills daily through academic coaching, planning sessions, and guided reflection, ensuring students are not only IB graduates, but confident, capable young adults ready for university life.

9

IMPROVED FOCUS & PERFORMANCE

Large classes and constant transitions often dilute learning. At RTA, students benefit from focused study blocks, targeted tutoring, and uninterrupted time to engage deeply with IB coursework — leading to stronger performance and reduced burnout.

10

AN ONLINE IBDP MINUS THE STRESS

RTA offers families the freedom of online IB education without the stress of managing it alone. Parents retain visibility and reassurance, while students receive daily structure, guidance, and human connection.

IN PARTNERSHIP WITH INTERNATIONAL SCHOOLS

Rabat Tutoring Academy has partnered with SEK International Schools, a globally respected education group with over 47 years of experience in the International Baccalaureate, to offer a hybrid IB Diploma Programme.

Through this partnership, students follow a two-year IB Diploma Programme delivered by SEK's experienced IB educators through live, interactive online classes. SEK consistently provides high quality education, achieving strong results on the IB Diploma, with average scores above the global average. While SEK provides the instruction, assessment, and diploma. Final IB exams taken on the SEK Campus in Madrid, where students reside for the exam period (a month). Rabat Tutoring Academy supports the students locally: we offer in-person supervision and structure, personalised tutoring, academic coaching, and hands-on assistance for the practical implementation of the Creativity, Activity and Service (CAS) core component.

This partnership allows students to benefit from the academic rigour of a SEK education while learning in a structured, supportive environment right here in Rabat. For more information about SEK, visit: <https://sek.es/en> - More information about SEK boarding facilities can be found at: <https://elcastillo.sek.es/en/student-life/boarding/>

PROGRAMME RECOGNITION & AUTHORIZATION

The IB Diploma Programme followed by students at Rabat Tutoring Academy is delivered through our partnership with SEK's authorized IB World School in Madrid. The International Baccalaureate permits schools to offer the Diploma Programme only after a rigorous quality-assurance process, ensuring academic integrity and high standards. SEK is also accredited by the New England Association of Schools and Colleges (NEASC) and has received multiple awards for its quality education including the Duke of Edinburgh's International Award, El Español Best School in Spain 2025, the Educational Excellence Award 2025 for the Best Programme in Values Education and Students' Socio-Emotional Care. It's a UNICEF Reference School and the only Spanish school that is a member of Round Square.

Students who complete their IB education through our hybrid program receive official IB results and transcripts issued by SEK. These will be submitted directly to universities by SEK International Schools upon request.

IN SPAIN

Our IB Diploma Programme

Our IB hybrid Diploma Programme allows students to earn the International Baccalaureate (IB) Diploma over the course of two years. This curriculum is recommended for students who are academically motivated and plan to apply to competitive universities worldwide. It is widely valued for producing independent, resilient learners who are well prepared for the academic expectations of higher education.

The IB curriculum is intentionally broad and rigorous. Students study six subjects drawn from key academic areas — including languages, mathematics, sciences, humanities, and the arts — while also completing three core components that develop research skills, critical thinking, and personal growth. Courses are taken at Higher Level (HL) and Standard Level (SL), allowing students to pursue subjects they enjoy in greater depth while maintaining a strong overall academic foundation (see course listing on next page).

Our hybrid program is designed to ensure students do not navigate the demands of the IB alone. In addition to online classes, students benefit from daily supervised study, personalised tutoring, academic coaching, and guided support for core IB requirements, including the Extended Essay, Theory of Knowledge, and Creativity, Activity and Service (CAS).

IB Diploma Programme Structure & Subjects

The IBDP is structured around six subject groups: Studies in language and literature, language acquisition, individuals and societies, sciences, mathematics, and the arts. Students select a combination of subjects from these groups, with a balance between Higher Level (HL) and Standard Level (SL) courses. This structure ensures academic rigor while offering the flexibility to tailor learning to individual passions—providing outstanding preparation for any university pathway.

Within each subject area, students have the freedom to pursue the topics they are most passionate about—enhancing their strengths, developing 21st century skills, and preparing strategically for university. Each student takes:

- 3 subjects at Higher Level (HL)
- 3 subjects at Standard Level (SL)

With this flexible, student-centered approach, each learner designs a personalized academic pathway that aligns with their goals and aspirations, while maintaining a strong overall academic foundation.

IB Diploma Programme Structure & Subjects

Core Components (Required for All Students)

In addition to the six subject areas, all students complete three core components that are central to the IB philosophy:

- Extended Essay (EE) – an independent 4,000-word research project
- Theory of Knowledge (TOK) – a course exploring how knowledge is constructed across disciplines
- Creativity, Activity & Service (CAS) – a structured programme of personal development beyond the classroom

These elements foster inquiry, reflection, and real-world engagement, contributing to the development of well-rounded, globally minded learners.

Personalised Pathways

While the IB structure is fixed, each student's subject combination is personalised based on:

- Academic strengths
- University goals
- Language background
- Interests and learning profile

ADMISSIONS PROCESS

Admission to the RTA Hybrid IB programme follows a personalized review process to ensure admitted students' readiness for the IB Diploma programme:

- 1 Initial consultation with the family
- 2 Submission of required documentation
- 3 Admission interview and testing
- 4 Final decision by admission committee
- 5 Confirmation of enrollment and subject choices

Places are limited to ensure high-quality supervision and individualized support.
